

FOR IMMEDIATE RELEASE

Brain Tumour Foundation of Canada Announces the 2023 Brain Tumour Walk is back as a Hybrid Event

London, ON - January 16, 2023 – Brain Tumour Foundation of Canada is excited to announce that after three years of COVID-19 restrictions and virtual events, our annual Brain Tumour Walk is back as a hybrid event. Happening in June 2023, we are calling all our heroes to reunite and [join us at a city near you](#). Can't make it in-person? We also have our National Virtual Brain Tumour Walk that can be done at anytime and anywhere, [sign up here!](#)

An opportunity for communities to come together across Canada to celebrate and remember our heroes, the Brain Tumour Walk is Brain Tumour Foundation of Canada's largest volunteer-led, peer-to-peer fundraising event.

Every day, 27 Canadians will hear the words "you have a brain tumour". Brain tumours are unpredictable and complex. They can affect anyone at any time. They can affect vision, hearing, memory, balance, and mobility. Their effects are physical, emotional, financial, and last a lifetime. Together, we walk with a united goal – to see an end to brain tumours – and raise funds for life-changing research, support programs, information, advocacy, awareness, and HOPE.

During this event, connect with thousands of walkers across Canada to celebrate, support and remember everyone affected by a brain tumour including our survivors, caregivers, health care professionals, and researchers who are leading the way in finding the cause of and cure for brain tumours.

Registration is now open! Find a [Brain Tumour Walk location](#) near you and register to participate in the walk in-person or [attend virtually](#). Together, let's make a difference in the lives of brain tumour patients across Canada. Learn more about the 2023 Brain Tumour Walk [here](#).

About Brain Tumour Foundation of Canada: Brain Tumour Foundation of Canada is the only national charity offering information and support to patients affected by any kind of brain tumour – be it cancerous, non-malignant or metastases. The organization funds ground-breaking research across North America and, since 1982, has dedicated over \$9.4 million to finding a cure and improving treatment for brain tumour survivors.

Brain Tumour Foundation of Canada is funded solely through generous contributions from individuals, corporations, organizations, employee groups and special events.
