

In-Service Overview

Every day, 27 Canadians learn they have a brain tumour.

To help support you, your patients, and their families, a Brain Tumour Foundation of Canada in-service provides an update on the resources and information available to health care teams, as well as various programs for the brain tumour community.

Brain Tumour Walk events take place in **June** each year!

Consider entering a team and raise funds to support your patients and their families.
www.BrainTumourWalk.ca

Who?

For members of the neuroscience and neuro-oncology health care community who work with people affected by brain tumours, including:

- Dietitians
- Educators
- Nurses
- Occupational Therapists
- Palliative Care Consultants
- Patient Navigators
- Personal and Home Support Workers
- Pharmacists
- Physicians
- Physiotherapists
- Psychologists
- Radiation Therapists
- Social Workers
- Speech Language Pathologists
- Support Care Practitioners
- Volunteers

and any other health care provider who may benefit from an In-Service presentation.

Where?

Virtually or in-person at your hospital, organization, or facility.

When?

Anytime (day / evening) that is convenient for your team (i.e. hospital rounds, lunch & learn, at shift change). Please consider booking more than one in-service presentation on the same day to help educate as many people on your team as possible.

What?

An in-service presentation aims to increase your comfort in referring patients, families, and caregivers to Brain Tumour Foundation of Canada through building partnerships with health care professionals and creating a sustainable community.

A 30-minute presentation includes:

- An overview of Brain Tumour Foundation of Canada's programs and services for patients, families, and health care professionals.
- Discussion around how Brain Tumour Foundation of Canada resources are being used at your hospital, organization, or facility.
- Discussion around gaps in services and how Brain Tumour Foundation of Canada can better support you in your role.
- An overview of brain tumours is also available for any group that would like a "Brain Tumour 101" presentation (i.e. volunteers, personal support workers)
